

COSMOV[®]

the originals

Lo standard qualitativo della nostra produzione è garantito da un severo controllo di qualità esercitato su tutte le fasi della lavorazione.

Ogni singolo procedimento produttivo ha luogo nei nostri stabilimenti per garantire un efficace collegamento fra le singole lavorazioni ed un attento controllo su di esse.

Dalla progettazione alla modellistica che si avvale della collaborazione dello studio Gianni Motta, si passa direttamente alla realizzazione delle attrezzature per la fonderia.

I pezzi pressofusi vengono successivamente lavorati nei vari reparti per essere rifiniti e confezionati a seconda delle varie esigenze.

The standard quality of our production is guaranteed by a strict quality control on every working phase.

Every single manufacturing process takes place in our factories, in order to guarantee an effective connection of the single workings, and an accurate control over them.

From the design, a result of the collaboration with the design study Gianni Motta, we proceed directly to the realisation of the foundry-equipment.

The die-cast pieces are then worked in the various departments to be finished up according to the different requirements.

Die Standardqualität unserer Produktion wird von einer strengen Qualitätskontrolle in jedem Arbeitsgang sichergestellt.

Jedes Herstellungsverfahren findet in unserer Fabrik statt, um eine wirksame Verbindung unter den einzelnen Verarbeitungen und eine sorgfältige Kontrolle zu garantieren.

Von der Planung unter der Mitwirkung des Studios Gianni Motta, übergeht man direkt zu der Leistung der Gießereigeräte.

Die Druckgegossene Teile werden dann in den verschiedenen Abteilungen verarbeitet, um je nach den verschiedenen Anforderungen feinbearbeitet und an fertig zu werden.

Le standard qualitatif de notre production est garanti par un sévère contrôle de qualité exercé sur toutes les phases du travail.

Chaque procédé productif a lieu dans nos établissements pour garantir une efficace liaison entre chaque travail et un attentif contrôle sur le même.

Du projet, qui profite de la collaboration du bureau Gianni Motta, on passe directement à la réalisation des équipements pour la fonderie.

Les éléments meublés sous pression sont par la suite travaillés dans les divers ateliers pour être finis et confectionnés selon les diverses nécessités.
