# INTRODUCTION

This catalogue presents the Lift-Up Bed Storage System, designed to allow controlled elevation of the mattress frame and easy access to the storage area below. It includes system configurations, fixing options, and accurate dimensions to support correct installation, alignment, and long-term performance.

# SYSTEM STRUCTURE

## Components

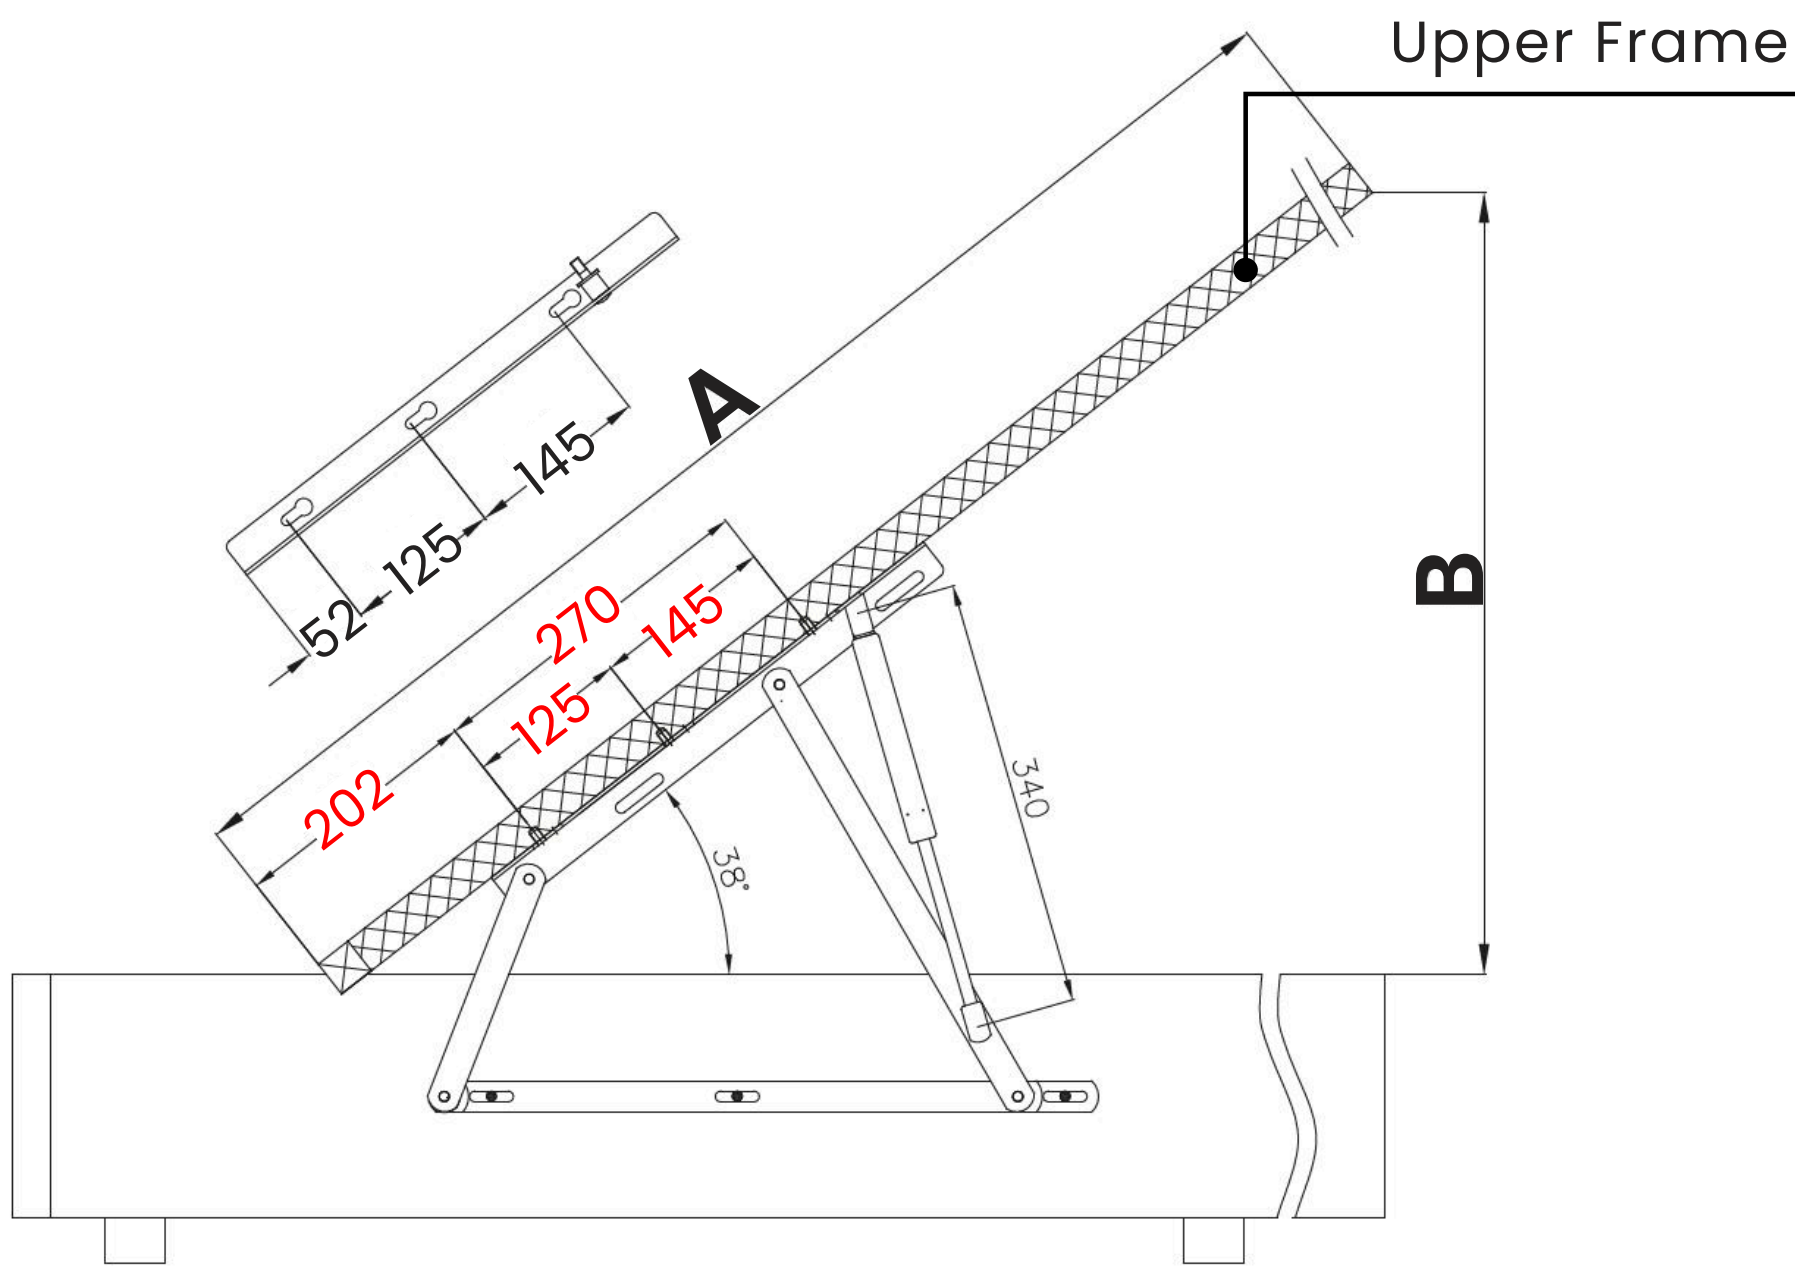

The illustration presents the complete **Lift-up bed system**. The annotated drawing identifies the **key components, Lift-up Plate and Gaz lifts with lowering retention**, and provides a clear understanding of the system structure and operation.

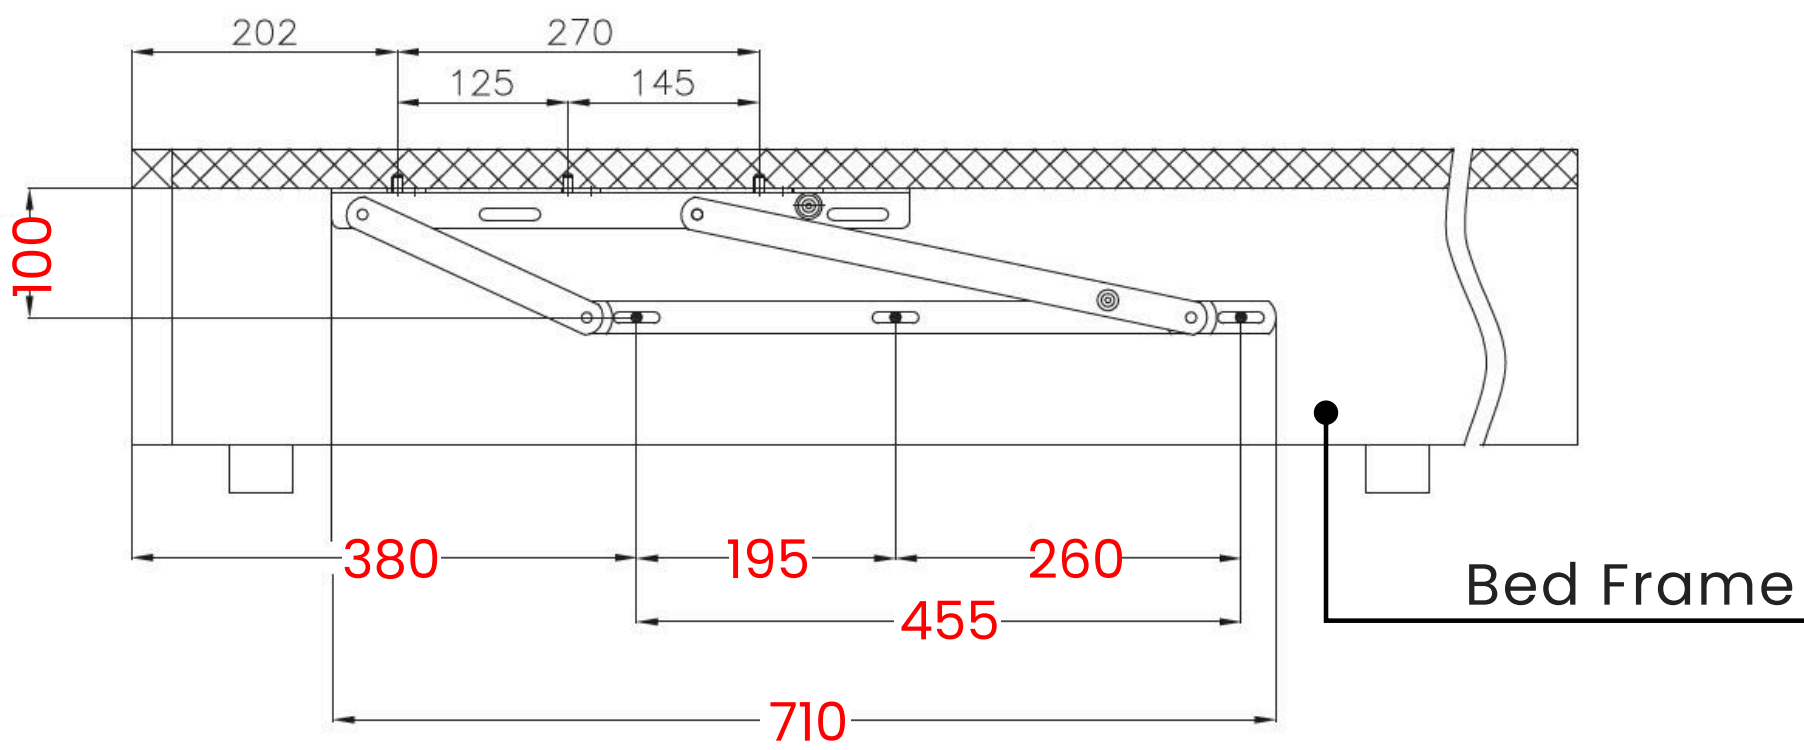

# SYSTEM INSTALLATION

## Bottom Fixing Method

The Lift-up plate is fixed **below the upper frame**, with fixing **dimensions** provided for both the upper frame and the bed frame.

A	B
1000	600
1800	1100
1900	1160
2000	1220

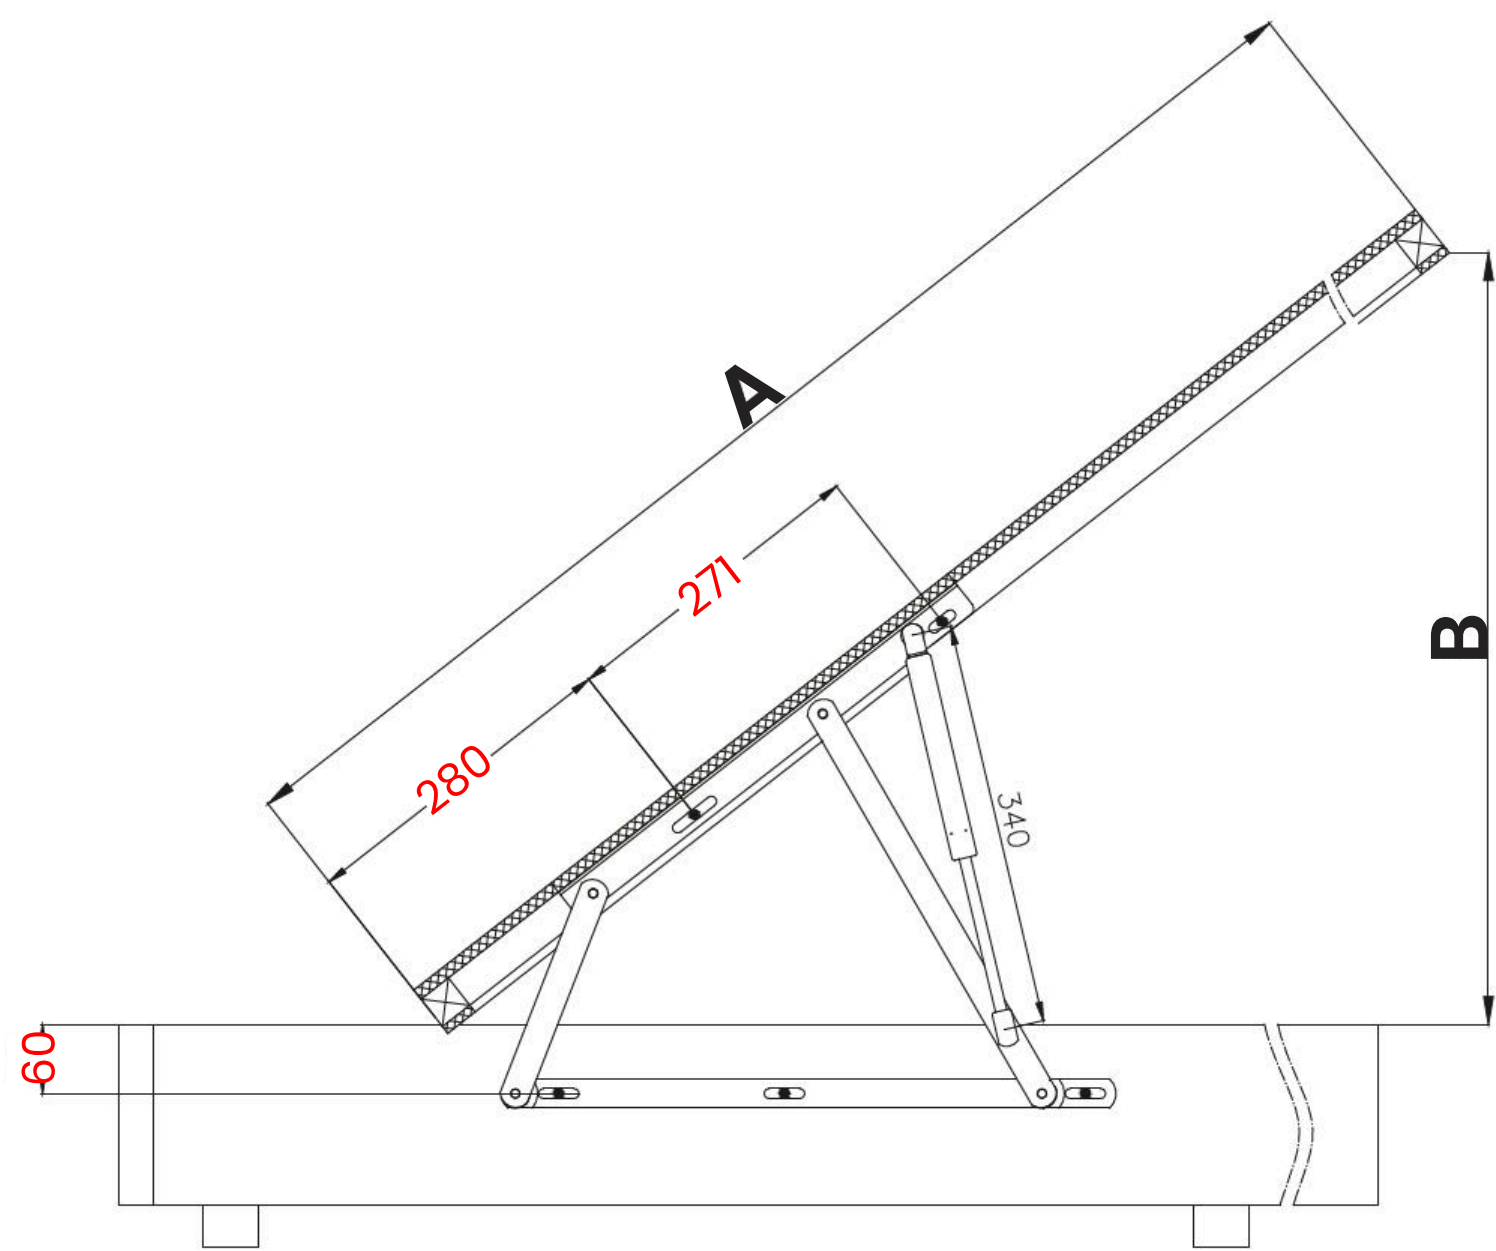

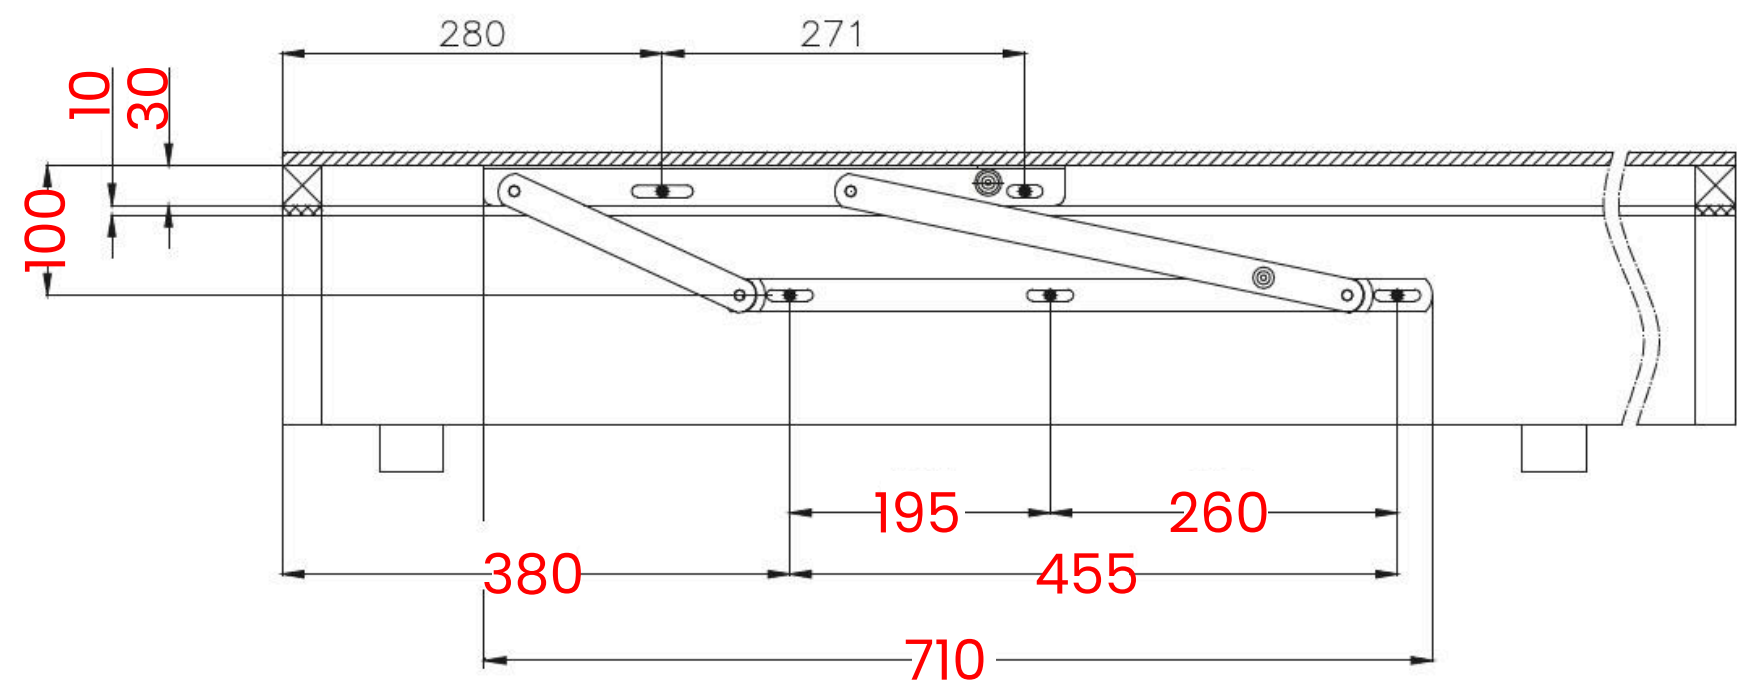

# SYSTEM INSTALLATION

## Side Fixing Method

The Lift-up plate is **side-fixed to the upper frame**, with fixing **dimensions** indicated for the upper frame and the bed frame.

A	B
1000	600
1800	1100
1900	1160
2000	1220
