# INTRODUCTION

This catalogue presents the Donati drawer systems, featuring the Slimbox metal drawer series designed for durability, smooth operation, and precise performance. The Slimbox range is available in three standard heights—H90, H130, and H180—offering flexible solutions to suit various storage requirements and design applications.

In addition, the catalogue includes Donati concealed slides, with detailed reference codes, technical specifications, and dimensional data to support accurate selection, installation, and long-term functionality.

# METAL DRAWERS

## SLIMBOX Overview

Slimbox is a thin metal drawer with synchronized runners, allowing great and flawless sliding. Thanks to its reduced sizes inner volume is bigger and fully utilizable. Handle is integrated on the side and it allows faster assembling. Adjustments are located on the side. It's available with soft closing system or push to open. Loading capacity 30 kg and 50.000 cycles. Available sizes: from 300mm up to 550mm. Available color: anthracite
